Tasmanian Assessment and Literacy Support Providers

Where can I find help with assessments and support?

Square Pegs is often asked by families where to seek assessment, tutoring and literacy support services. This list is not exhaustive but is intended to provide a starting point for families exploring assessment and intervention options across Tasmania.

We also encourage families to speak with their school about available assessment pathways and support options.

Families are encouraged to ask questions and ensure that any support provider is a good fit for their child's individual needs and circumstances.

We aim to update this list regularly. If you would like to recommend a local service provider or provide feedback about your experience with any of the services listed, please contact us at info@squarepegstas.org

The inclusion of a service provider on this list does not constitute endorsement by Square Pegs. Services are listed in good faith, and Square Pegs accepts no responsibility for the quality, outcomes or availability of services provided. Please note that wait times and availability may vary between providers.
